IT’S ABOUT A BIG CONCERN

REF: 15 RECOMMENDATIONS FOR A GREENER ECONOMY OF NEPAL

... let’s fight climate change strategically!

01. Apply progressive interest rate on hire purchase of vehicles based on their carbon footprint. Those private vehicles with larger carbon footprint is levied larger interest rate.

02. Banks and Public Office should start capping or ride sharing service for employees using Electric Vehicles (EVs).

03. Eco-labelling of vehicles based on carbon footprint.

04. No parking space for vehicles with large carbon footprint at public places.

05. Lowering insurance premium for electric vehicles by at least 10 basis point (0.1%).

06. Creating green index for each wards in major Metropolitan cities.

07. Adding Green and Red exit channels at major malls or marts.

08. Issuance of green bond for financing community forest and community water supply system.

09. Making electric vehicle default choice while applying for car loans.

10. Make double sided paper print, a default choice while printing at public offices, banks, insurance and universities.

11. Making Environmental, Social and Governance (ESG) as compulsory risk analysis tool while creating portfolios at banks and investment companies.

12. Enabling QR code based payment in Government offices.

13. Introducing upselling program targeted to car mechanics for fixing Electric Vehicles.

14. Creating seed fund for startups that comes up with green solution.

15. Introducing phase wise shift in overall taxation policy from labor to the natural resources.
